

**DIGITAL TRANSMISSION SURVEILLANCE SYSTEM
OVERALL SYSTEM MAINTENANCE REQUIREMENTS AND
TEST PROCEDURES
DIGITAL DATA SYSTEM**

1. GENERAL

1.001 This addendum supplements Section 314-984-500, Issue 1. Place this pink sheet ahead of Page 1 of this section.

1.002 This addendum is issued for the following reasons.

(a) To replace the term and abbreviation Digital Network Administration Center (DNAC) with National Technical Support Center (NTSC) or Facility Management Administration Center (FMAC), depending on the specific functional responsibility

(b) To delete and/or change a sentence in paragraphs 1.03 and 1.05.

2. CHANGES TO SECTION

2.001 On Page 1, revise paragraph 1.03 to read as follows: Trouble investigation can originate anywhere in the DTSS network, such as at the NTSC, minicomputer center, surveillance unit (CP HL96) location, FMAC, or remote looped location. The DTSS

troubles will primarily be detected and corrective action initiated by the NTSC, since the NTSC is the main point for assistance of the DTSS multipoint network. Other locations may initiate trouble clearing action with the guidance of NTSC.

2.002 On Page 1, paragraph 1.05, replace the second sentence with the following sentence: The test procedures are for the craft at the remote looped and SU locations and for the technician at the NTSC.

2.003 On Page 1, paragraph 1.05, subparagraph (a), replace DNAC with FMAC.

2.004 On Page 2, paragraph 1.07, replace DNAC with NTSC.

2.005 On Page 2, paragraph 2.01, subparagraph (a), replace the fourth and fifth sentences (last two) with the following sentences: This should be confirmed by contacting the NTSC. The NTSC will coordinate the repair and maintenance of the SU.

2.006 Throughout pages 3 to 54, replace DNAC with NTSC, which includes the right column heading.
