

**N3 CARRIER TELEPHONE SYSTEM  
CARRIER-FREQUENCY SUPPLY  
DESCRIPTION**

**1. GENERAL**

**1.001** This addendum supplements Section 362-901-100, Issue 3. Place this pink sheet ahead of Page 1 of the section.

**1.002** This addendum is reissued for the following reason:

- (a) To correct errors on Fig. 13.

This addendum does not affect the Equipment Test List.

**1.003** Issue 1 of this addendum was issued for the following reasons:

- (a) To change the copyright notice
- (b) To correct errors on Fig. 26.

**2. CHANGES TO SECTION**

**Issue 1 CHANGES**

**2.001** On the bottom of Page 1, delete the copyright notice and add the following: Not for use or disclosure outside the Bell System except under written agreement.

**2.002** On Page 27/28, Fig. 26, correct the N3 power supply circuits SD-81638-01 (regular and alternate) to reverse positions of the make and the break contacts of the K1 relay. As corrected, ground from the moveable K1 relay contact is supplied through the make contact to the major alarm and through the break contact to the LP circuits.

**Issue 2 CHANGES**

**2.003** On Page 15, Fig. 13, change the 4-kHz sensing circuit TO ALM IN A and TO ALM IN B leads to read as follows: TO FIG. 15.

**NOTICE**

Not for use or disclosure outside the  
Bell System except under written agreement
