AUB4 ALARM DISPLAY UNIT/ALARM SUPPRESSOR UNIT 5SCSC00BX

DATA SHEET

"SLC®" SERIES 5 CARRIER SYSTEM

The AUB4 alarm display unit/alarm suppressor unit (ADU/ASU) is used in the central office terminal (COT-J1C182AA). The AUB4 is plugged into the white bank ADU position when the blue bank of a dual channel bank assembly is turned up and the white bank is being left unequipped. The AUB4 sup-

plies the AUB3 with the proper logic level to indicate that no alarms exist in the nonequipped white bank.

Figure 1 is a block diagram of the unit, and Fig. 2 shows the faceplate.
