

STATION SETS

SELECTION FOR SPECIFIC USE OR PURPOSE

1. GENERAL

1.01 This section is reissued to:

- Add new telephone sets, uses, and features.
- Provide separate tables for uses and features.
- Indicate Manufacture Discontinued (MD) telephone sets.

Since this reissue covers a general revision, arrows ordinarily used to indicate changes have been omitted.

1.02 The information contained in Tables A, B, and C does not include class of service or transmission zoning requirements. This information may be found in detail in the sections covering the specific sets.

1.03 Equipment for use where inductive noise is encountered is covered in the section on inductive noise.

1.04 Refrigerating and freezing rooms do not require special sets, but do require special treatment of sets as covered in a separate section on use of station sets in refrigerated rooms.

2. SELECTION OF SETS

2.01 Two-piece sets for a specific use or feature are shown in Table A. Station sets for a specific use are shown in Table B. Station sets with a specific feature are shown in Table C.

2.02 Certain sets listed in this section are available in color. Information regarding available colors may be obtained by consulting the section pertaining to color.
