

SERVICE

544-TYPE TELEPHONE SET

1. GENERAL

1.01 This section provides maintenance and connection information for the 544A (MD) and 544B (MD) telephone sets.

2. MAINTENANCE

Components

2.01 Maintenance of handsets, dials, and ringers is outlined in sections covering these components.

Removing and Replacing Housing

2.02 To remove housing, loosen captive screws in base of set. Lift housing up and toward front of set.

2.03 To replace housing, guide lower front of housing over pushbuttons, align housing with base of set and gently press housing into place. Tighten captive screws in base of set.

Mounting Cord

2.04 Replace mounting cord of early manufacture (Fig. 1) as follows:

- (1) Remove dial from mounting bracket.
- (2) Remove terminal screws.
- (3) Disconnect spade-tipped conductors and wafer section.
- (4) Disengage cord stay hook from right leg of dial mounting bracket.

2.05 Mounting cords of later manufacture feature a slotted wafer strip (Fig. 2) to facilitate replacement.

SECTION 502-541-402

ushbuttons

2.06 Replace cracked pushbuttons or collars. Remove accumulated dirt or film from collars and pushbuttons with a water dampened cloth.

Do not use solvents of any kind. If cleaning does not correct binding of pushbuttons, replace button and collar assembly. It should be carefully aligned to avoid interference with removal or replacement of housing.
