REMOVAL

1. GENERAL

1.01 This addendum provides instructions for eliminating possible hazards resulting from removal of outdoor telephone booths.

1.02 Telephone booth, base and conduit should all be removed, wherever practicable.

1.03 It is sometimes desirable to leave a concrete base in place after removal of the telephone booth,

In such cases, the installer shall check to ensure that no safety hazards, such as protruding conduit or protrusion of the base above the ground surface, will exist after removal of the booth.

1.04 The installer shall notify his supervisor of any such potential hazards, so that appropriate measures can be taken to eliminate the hazard.
