

OUTDOOR BOOTH 9-TYPE

1. GENERAL

1.01 Information in this section was formerly contained in Section 508-350-100 which is hereby canceled.

1.02 The 9-type booth is rated MD.

2. MAINTENANCE

2.01 Booth should be free of loose dirt or other objectionable material.

2.02 File or sand sharp edges, burrs, or splinters on exposed surfaces.

2.03 Clean booth in accordance with Section 508-100-101.

2.04 Replace directories and hangers which do not meet local telephone company standard. See Section 508-710-101.

THINK → *Wear gloves and eye protection when handling glass and wire-glass panels to prevent personal injury.*

THINK → *Work operations on booth lighting equipment and electrical wiring should be limited to locations where power can be turned off at a switch or where a plug can be removed.*

2.05 Damaged or broken booth panels shall be made safe, and arrangements shall be made for replacement.
