

**SERVICE**  
**583- AND 584-TYPE PANELS**  
**1A2 KEY TELEPHONE SYSTEM**

**1. GENERAL**

**1.001** This addendum supplements Section 518-215-410, Issue 8. Place this pink sheet ahead of Page 1 of the section.

**1.002** This addendum is reissued to:

- Further revise paragraph 1.06
- Add 415B KTU to those KTUs to be used to meet FCC Registration requirements
- Add paragraph 1.07.

**1.003** Issue 1 of this addendum was issued to revise paragraph 1.06.

**2. CHANGES TO SECTION**

**2.001** On Page 1, revise paragraph 1.06 to read as follows:

**1.06** The 583A (MD), 584A (MD), and 584B (MD) panels have not been registered with the

FCC. The 584C panel has been registered and can be used in either registered or grandfathered installations. After January 1, 1980, the 401B, 415B, and 471C key telephone units (KTUs) must be used when providing their related services. Previously connected or Class C panels or KTUs may be used for additions and maintenance at grandfathered installations for the life of the units, providing they are not modified. Class C stock may also be used in new installations after January 1, 1980.

**2.002** On Page 2, add paragraph 1.07 as follows:

**1.07** Incoming central office (CO) lines to be installed in compliance with the FCC Registration Program must be routed through a standard network interface. Information on approved interfaces is contained in Sections 463-400-100 through 463-400-150.

**NOTICE**

Not for use or disclosure outside the  
Bell System except under written agreement
