## Notice

Every effort was made to ensure that the information in this book was complete and accurate at the time of printing. However, information is subject to change.

## Your Responsibility for Your System's Security

Toll fraud is the unauthorized use of your telecommunications system by an unauthorized party, for example, persons other than your company's employees, agents, subcontractors, or persons working on your company's behalf. Note that there may be a risk of toll fraud associated with your telecommunications system and, if toll fraud occurs, it can result in substantial additional charges for your telecommunications services.

You and your system manager are responsible for the security of your system, such as programming and configuring your equipment to prevent unauthorized use. The system manager is also responsible for reading all installation, instruction, and system administration documents provided with this product in order to fully understand the features that can introduce risk of toll fraud and the steps that can be taken to reduce that risk. Lucent Technologies does not warrant that this product is immune from or will prevent unauthorized use of common-carrier telecommunication services or facilities accessed through or connected to it. Lucent Technologies will not be responsible for any charges that result from such unauthorized use.

## Lucent Technologies Fraud Intervention

If you *suspect that you are being victimized* by toll fraud and you need technical support or assistance, call Technical Service Center Toll Fraud Intervention Hotline at 1 800 643-2353.

## Federal Communications Commission Statement

**Part 15: Class A Statement.** This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio-frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference, in which case the user will be required to correct the interference at his own expense.

**Part 68: Network Registration Number.** This equipment is registered with the FCC in accordance with Part 68 of the FCC Rules. It is identified by FCC registration number AS593M-13283-MF-E.

**Part 68: Answer-Supervision Signaling.** Allowing this equipment to be operated in a manner that does not provide proper answer-supervision signaling is in violation of Part 68 Rules. This equipment returns answer-supervision signals to the public switched network when:

- Answered by the called station
- Answered by the attendant
- Routed to a recorded announcement that can be administered by the CPE user

This equipment returns answer-supervision signals on all DID calls forwarded back to the public switched telephone network. Permissible exceptions are:

- A call is unanswered
- A busy tone is received
- A reorder tone is received

## Canadian Department of Communications (DOC)

### Interference Information

This digital apparatus does not exceed the Class A limits for radio noise emissions set out in the radio interference regulations of the Canadian Department of Communications.

Le Présent Appareil Numérique n'émet pas de bruits radioélectriques dépassant les limites applicables aux appareils numériques de la class A prescrites dans le reglement sur le brouillage radioélectrique édicté par le ministère des Communications du Canada.

### Trademarks

See the preface of this document.

### Ordering Information

**Call:** Lucent Technologies Publications Center  
Voice 1 800 457-1235 International Voice 317 361-5353  
Fax 1 800 457-1764 International Fax 317 361-5355

**Write:** Lucent Technologies Publications Center  
P.O. Box 4100  
Crawfordsville, IN 47933

**Order:** Document No. 555-230-303  
Comcode 107955239  
Issue 2, April 1997

For additional documents, refer to the section in "About This Document" entitled "Related Resources."

You can be placed on a standing order list for this and other documents you may need. Standing order will enable you to automatically receive updated versions of individual documents or document sets, billed to account information that you provide. For more information on standing orders, or to be put on a list to receive future issues of this document, contact the Lucent Technologies Publications Center.

### European Union Declaration of Conformity

The "CE" mark affixed to the DEFINITY® equipment described in this book indicates that the equipment conforms to the following European Union (EU) Directives:

- Electromagnetic Compatibility (89/336/EEC)
- Low Voltage (73/23/EEC)
- Telecommunications Terminal Equipment (TTE) i-CTR3 BRI and i-CTR4 PRI

For more information on standards compliance, contact your local distributor.

# Implementation Blank Forms

# 1

---

This package contains a complete set of blank system forms for you to use when making assignments for your system. Reproduce these forms and complete all fields as required based on information obtained from the Communications Survey in *DEFINITY Enterprise Communications Server Release 5.4 Administration and Feature Description*, Issue 1. Use the completed paper forms during system administration and then retain these forms as a set of hard copy records of your system.

 **NOTE:**

While using these blank forms, it is important to remember that these are representations of what you will actually see on the administration terminal display screen. The blank forms in this package will show all possible fields that could be displayed by your system. A particular field may or may not be displayed by your system depending on entries made in other fields, as well as optional features purchased with your system.

### CLASS OF RESTRICTION

COR Number: \_\_\_  
 COR Description: \_\_\_\_\_

FRL: ___	APLT? ___
Can Be Service Observed? ___	Calling Party Restriction: _____
Can Be A Service Observer? ___	Called Party Restriction: _____
Time of Day Chart: ___	Forced Entry of Account Codes? ___
Priority Queuing? ___	Direct Agent Calling? ___
Restriction Override: _____	Facility Access Trunk Test? ___
Restricted Call List? ___	Can Change Coverage? ___
Access to MCT? ___	Fully Restricted Service? ___
Category For MFC ANI: ___	Hear VDN of Origin Annc.? ___
Send ANI for MFE? ___	Add/Remove Agent Skills? ___
Hear System Music on Hold? ___	PASTE (Display PBX Data on Phone)? ___
Automatic Charge Display? ___	Can Be Picked Up By Directed Call Pickup? ___
	Can Use Directed Call Pickup? ___

### CLASS OF RESTRICTION

## Digit Absorption

### DIGIT ABSORPTION

List Number: \_\_

ABSORPTION TREATMENT INFORMATION (All selections must be from same group)

	Choice	Meaning
Group I.	A	Digit not absorbed.
	B	Digit absorbed repeatedly.
	C	Digit absorbed once with no further absorption.
Group II.	A	Digit not absorbed.
	D	Digit absorbed only if it is the first digit.
	E	Digit absorbed only if it is the second digit and the first digit was already absorbed.
	F	Digit absorbed only if it is the first or second digit.

ABSORPTION TREATMENT ASSIGNMENT (Select treatment (A-F) for each digit below)

0: _	2: _	4: _	6: _	8: _
1: _	3: _	5: _	7: _	9: _

## Release Link Trunk (RLT) Group

### TRUNK GROUP

Group Number:  Group Type: rlt CDR Reports?   
 Group Name:  COR:  TN:  TAC:   
 Direction:  Outgoing Display?  Trunk Signaling Type:   
 Busy Threshold:  Night Service:   
 Queue Length:  Incoming Destination:

### TRUNK PARAMETERS

Trunk Type(in/out):  Incoming Rotary Timeout:   
 Outgoing Dial Type:  Incoming Dial Type:   
 Wink Timer(msec):  Sig Bit Inversion:   
 Connected to Toll?  STT Loss:  DTT to DCO Loss:   
 Incoming Dial Tone?  Send Release Ack?  Receive Release Ack?   
 Disconnect Supervision In?  Send Answer Supervision?   
 Answer Supervision Timeout:  Receive Answer Supervision?

### TRUNK FEATURES

ACA Assignment?  Measured:   
 Long Holding Time(hours):  Maintenance Tests?   
 Short Holding Time(sec):  Data Restriction:   
 Measured:   
 Used for DCS?  PBX ID:   
 Suppress # Outpulsing?
