NOTE: When ordering parts from this section, prefix each number with the letters TP.

Notes:

1. For Model 37 only, pallets wider than .087" are prefixed with an asterisk (*10) in the Character Per Inch column. Care should be taken when positioning these pallets side by side in the typebox so as not to cause interference with one another.
2. For Model 37 only, when ordering type pallets for the 7th and 8th row typeboxes, it is recommended that the 334956 Modification kit also be ordered. This kit provides visual aid for the operator by relating the position of the desired character or symbol to the keyboard letters.
3. All characters and symbols are directly in the center of the type pallet unless otherwise specified.  represents the center and the over-all pallet face and should be considered only as an aid in distinguishing similar symbols of the different type styles.
