

Classification: A1

Billable to Telco: Yes X No

APPARATUS AFFECTED: 2101AA and 2101AB DATASPEED Printers (Receive-Only).

PART AFFECTED: None

REASON: To prevent operational difficulties due to paper lint accumulation by providing a special teletypewriter paper.

CHANGE: A special teletypewriter paper, TKS-104, is available and recommended for use in the 2101AA and 2101AB DATASPEED RO Printers since this paper gives more legible copy and lint free operation than other teletypewriter paper.

The TKS-104 teletypewriter paper is single-ply, 16 lb, white bond paper (100% chemical wood fiber) in 8-1/2 inch width, 5 inch diameter rolls, approximately 490 feet per roll.

PUBLICATION AFFECTED: Section 570-008-010, Issue 8.
Section 578-500-100, Issue 3, Page 5, 1. 12
Section 578-500-101, Issue 1, Limited Printing, Page 5, 1. 12.
Section 578-500-200, Issue 3, Page 18, 2. 25.
Section 578-500-201, Issue 1, Limited Printing, Page 19, 2. 25
Section 578-500-300, Issue 3, Page 1, 2. 03.
Section 578-500-301, Issue 1, Limited Printing, Page 1, 2. 03.

IDENTIFICATION: The TKS number (TKS-104) is stamped on the end of the paper roll.

INTERCHANGEABILITY: The TKS-104 teletypewriter paper is interchangeable with the standard 8-1/2 inch teletypewriter paper (KS1920).

PARTS AVAILABILITY: The TKS-104 teletypewriter paper can be obtained from Paper Manufacturers Company, Eastern Specialties Company, Inc., Papertronics, Link Paper Company or other approved suppliers per Teletype specification TKS-104. Orders for this material should include quantity, Teletype TKS number and color (white).
