"DATASPEED*" AP25 PRINTER

TESTING

1. GENERAL

1.01 This section provides testing information for the DATASPEED AP25 Printer.

1.02 Whenever this section is reissued, the reason for reissue will be listed in this paragraph.

1.03 An installation checkout should be performed after installation to make sure the station is operable.

1.04 On trouble calls, an installation checkout should be performed after trouble correction to make sure the station is operable.

1.05 Following routine maintenance calls, an installation checkout should be performed.

*Registered Trademark of AT&TCo

1.06 The checkout routines are presented in table form with test conditions arranged in a specific sequence. A response is given to verify the test condition has passed.
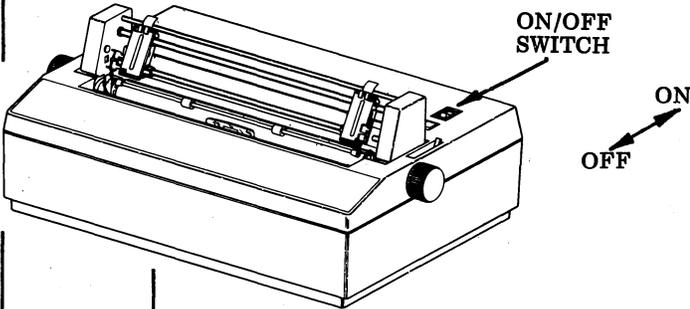

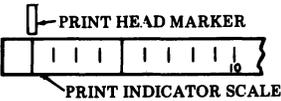

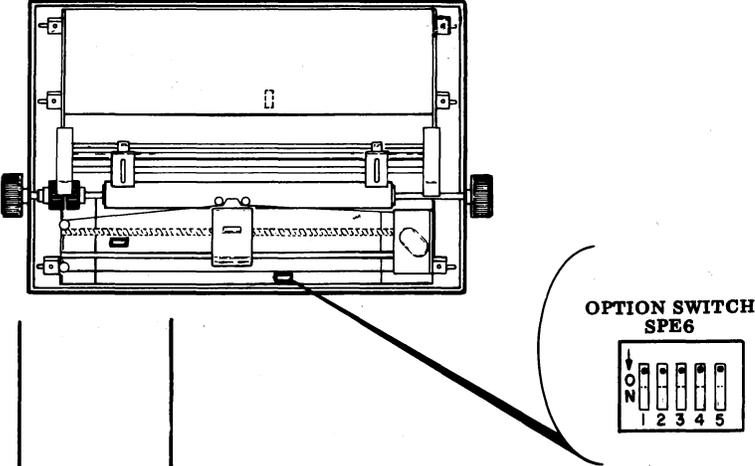

1.07 Always perform the tests in the order given. The test steps are based on satisfactory results of all previous steps.

1.08 If the indicated response is not obtained in any step of a test procedure, repeat the step to make sure that the procedure has been performed properly. If the results are still unsatisfactory, refer to the DATASPEED AP25 Printer Troubleshooting, Section 582-310-300.

1.09 When ordering components, unless otherwise specified, prefix each part number with the letters "TP" (ie, TP410055).
