

**NUMERICAL INDEX — DIVISION 591
100 SERIES DATA SETS AND ASSOCIATED SERVICES**

1. GENERAL

- 1.01** This section provides an index of System-issued sections in Division 591.
- 1.02** This section reverted to Issue 1 in September 1979. Prior to that date there had been 99 issues of the section.
- 1.03** A bullet (●) indicates an item that has been added or changed since the previous issue of the index.
- 1.04** A square (□) indicates a canceled item. Information relating to the cancellation, if necessary, will be shown in a note following the item. Canceled items and related notes will be deleted upon reissue of the index.
- 1.05** A heart (♥) indicates a new or reissued item which, because of its limited need, will not be distributed on standing order except through coded distribution. Additional copies may be obtained by placing regular (one-time) orders.
- 1.06** A spade (♠) indicates an item not on microfiche. This index indicates the latest issue for hard-copy BSPs. In some cases, the microfiche BSP will reflect the next higher issue as a result of the reduced distribution interval.
- 1.07** "Add" is the abbreviation for Addendum, and "App" is the abbreviation for Appendix.

2. LAYERS

- 2.01** This division is arranged in layers as follows: (see subdivisions).
