

DATA SET 202E-TYPE
DESCRIPTION AND OPERATION

1. GENERAL

1.001 This addendum supplements Section 592-018-100, Issue 3.

1.002 This addendum is issued to identify the series number of data sets 202E-type in which wiring option M has been removed.

1.003 Series numbers of data sets 202E-type which have wiring option M removed are as follows:

- 202E1 and 202E10—Series 4

- 202E2, 202E7, 202E11 and 202E12—Series 5

- 202E9 and 202E13—Series 6

1.004 With wiring option M removed, monitoring of data with the handset when the set is in the data mode is no longer possible. The handset, however, must still remain off-hook for the duration of the attended data call.
