

**DATA AUXILIARY SETS**  
**801A1, 801A2, 801A3 AND 801A4**  
**FOR AUTOMATIC CALLING**  
**DESCRIPTION AND OPERATION**

**1. GENERAL**

**1.001** This addendum supplements Section 598-010-100, Issue 3, dated October 1967. The following changes and information concerning Data Auxiliary Sets 801A1, 801A2, 801A3, and 801A4 will be incorporated in Issue 4.

**1.002** The information presented in this addendum can be incorporated by marking the present section as specified.

**1. GENERAL**

The following change applies to Part 1 of the section.

(a) Add to 1.04—Data Set 103A and Data Sets 101A, 101B, and 101C when used with Data Auxiliary Set 811B-type are also compatible with the ACUs. Consult the proper data set Sections for the installation procedures with the ACUs.

**3. OPERATION**

The following change applies to Part 3 of the section:

(a) Change the fourth and fifth sentences of 3.03 (b) to read—The Intercall Timer is then activated and the DLO lead is turned OFF. The PND lead is turned OFF.
