

DATA AUXILIARY SETS
801A1, 801A2, 801A3 AND 801A4
FOR AUTOMATIC CALLING
INSTALLATION AND CONNECTIONS

1. GENERAL

1.001 This addendum supplements Section 598-010-200, Issue 3, dated October 1967. The following changes and information concerning Data Auxiliary Sets 801A1, 801A2, 801A3, and 801A4 will be incorporated in Issue 4.

1.002 The information presented in this addendum can be incorporated by marking the present section as specified.

3. CONNECTIONS

The following changes apply to Part 3 of the section:

- (a) Add (see Note 1) to the Feature or Option Description of the "Q" option in Table A.

- (b) Add the following information below Table A on page 6:

Note 1: The "Q" option is required whenever the answer contact path from the ACU to the data set must be completed by means of the Data Tip (DT) lead.

- (c) Change Note 8 of Table B to read: K in early production sets.
