

MULTIPLE LINE WIRE
INSTALLATION OF COIL CASE

GENERAL

This addendum ~~to Section 624-200-6~~ changes the method of installing coil cases on crossarms.

Paragraph 4.02 - Supplemented

Paragraph 4.03 - Supplemented

Cross-reference these paragraphs in the main section.

4. INSTALLATION ON CROSSARMS

4.02 In California, do not mount the case on the bolt supporting the crossarm brace as shown. Use a separate 3/8 in. x 4 in. Carriage Bolt placed outside the crossarm brace position. Maintain not less than 1-1/2 inch separation between the crossarm brace and any part of the loading coil case and mounting bracket.

4.03 Do not mount a coil case on the bolt supporting the crossarm brace as shown. See paragraph 4.02 for mounting details.
