

## CABLE REPAIRING — UNDERGROUND PLASTIC SHEATH CABLE

### 1. GENERAL

1.001 This addendum supplements Section 628-800-300, Issue 2.

1.002 Whenever this Addendum is reissued, the reason(s) for reissue will be provided in this paragraph.

1.003 This addendum is issued to require the use of C Sealing Clamps in the repair of underground plastic sheath cable.

### 2. MATERIAL

The following change applies to Part 2 of the

section:

- (a) 2.01 — add  
C Sealing Clamps

### 3. PROCEDURE

The following change applies to Part 3 of the section.

- (a) 3.09 — add

3.09 Place sealing clamps over the outer edges of the B Aluminum Tape. If distance between sealing clamps exceeds three inches, add additional sealing clamps as needed.
