

**BUILDING TERMINALS – MAIN TERMINALS
USING 66-TYPE QUICK-CONNECT HARDWARE**

1. GENERAL

1.001 This addendum supplements Section 631-460-201.

1.002 It is reissued to change the part number, part heading, and paragraph number to conform with the main section.

1.003 It covers the restrictions regarding the type of splice closure to be used on exposed cables.

**4. INSTALLATION OF TERMINALS SERVED BY
EXPOSED CABLES**

The following change applies to Part 4 of the section:

(a) Paragraph 4.15 — revised

4.15 Refer to Addendum 631-460-200PT for restrictions and conditions of use of plastic closures on exposed entrance cables.
