

13- AND 14-TYPE
REFILLED WATERPROOF DISTRIBUTION
CLOSURES

1. GENERAL

1.001 This addendum supplements Section 631-600-217.

1.002 It is issued to provide certain precautions when 13- or 14-type closures are used.

The following change applies to Part 1 of the section:

- 1.03 – add note of precaution

1.03 (Add after this paragraph)

Note — Precaution: The 13- and 14-type closures should be buried immediately after construction. When exposed to the elements for any length of time, the compound may develop voids which can lead to moisture problems at a later date. If a closure cannot be buried immediately, use a type that is post-filled with C or D Encapsulant or equivalent.
