

## DYNATEL 500 CABLE LOCATOR

### 1. GENERAL

1.001 This addendum supplements Section 634-220-901NB, Issue A.

1.002 Whenever this addendum is reissued, the reason(s) will be provided in this paragraph.

1.003 This addendum is issued to revise Paragraph 1.02.

1.02 This portable, battery operated tone set locates the path of buried or underground (UG) cables and buried service drops. **THE USE OF THIS SET ON LEAD OR JUTE COVERED CABLES IS NOT RECOMMENDED.** The cable locator can also be used for positive cable or conductor identification, for finding the depth of buried or UG cables accurately, and for finding clear or severed cable ends.
