

## **CABLE PRESSURE SYSTEM BUFFERING**

### **1. GENERAL**

**1.001** This addendum supplements Section 637-305-901NB.

**1.002** Whenever this addendum is reissued, the reason(s) for reissue will be provided in this paragraph.

**1.003** This addendum is reissued to:

(a) add paragraph 5.02

### **5. AERIAL PIPE SYSTEMS**

**5.02** When the location of the opening described in Paragraph 5.01 is within 1500 feet of the riser pole, turn off the shut-off valve at the plug on the riser pole. Plant Engineering will supply shut-off valve location and provide for installation of plug and shut-off valve if none exist.
