## NOTICE OF DISCLAIMER

This document is issued by Bell Communications Research, Inc. (Bellcore) to inform its clients of Bellcore's Practice on *COMMON LANGUAGE® State, Province, Territory, Country and Unique Codes*. Neither this document nor any of its contents should be disclosed to persons other than employees of those companies.

Bellcore reserves the right to revise this document for any reason, including but not limited to, conformity with standards promulgated by various agencies, utilization of advances in the state of the technical arts, or the reflection of changes in the design of any equipment, techniques, or procedures described or referred to herein.

BELLCORE MAKES NO REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, WITH RESPECT TO THE SUFFICIENCY, ACCURACY, OR UTILITY OF ANY INFORMATION OR OPINION CONTAINED HEREIN. BELLCORE EXPRESSLY ADVISES THAT ANY USE OF OR RELIANCE UPON SAID INFORMATION OR OPINION IS AT THE RISK OF THE USER, AND THAT BELLCORE SHALL NOT BE LIABLE FOR ANY DAMAGE OR INJURY INCURRED BY ANY PERSON ARISING OUT OF THE SUFFICIENCY, ACCURACY, OR UTILITY OF ANY INFORMATION OR OPINION CONTAINED HEREIN.

This document does not represent any commitment by Bellcore or by any of its clients to purchase any product using the *COMMON LANGUAGE State, Province, Territory, Country and Unique Codes*.

Each Bellcore Client Company may have requirements or specifications different from those described herein.

Nothing contained herein shall be construed as conferring by implication, estoppel or otherwise, any license or right under any patent, whether or not the use of any information herein necessarily employs an invention of any existing or later issued patent.

Bellcore does not recommend products, and nothing contained herein is intended as a recommendation of any product to anyone.

## 1. Purpose

The purpose of this Bellcore Practice (BR) is to provide definitions, requirements, and usage of COMMON LANGUAGE State Codes. COMMON LANGUAGE State Codes are derived by Bellcore upon request, from state, province, territory, and country names, and also from certain unique locations throughout the world.

In addition to the respective Bellcore Practice number, Table A lists the following COMMON LANGUAGE standard codes for the representation of

- States of the United States and the District of Columbia
- U. S. Outlying and Pacific Ocean Territories
- Provinces and Territories of Canada.
- States of Mexico and the Federal District
- Other Countries of the World.
- Unique Places and States.

## 2. Scope

This Practice is directed to those who need to know the COMMON LANGUAGE standard codes for assignment, description, and application interface. This Practice is issued for use as a cross-reference to BR 751-100-050, *COMMON LANGUAGE® Place Codes—Description*, and to BR 795-100-100, *COMMON LANGUAGE® CLLI™ Code Description for Location Identification*. BR 751-100-050 provides definitions, requirements, and usage of COMMON LANGUAGE Place Codes, and BR 795-100-100 provides the basic rules and guidelines used when assigning unique CLLI codes to geographic locations and functional categories of equipment that are of interest primarily to the communications industry.

## 3. Reason for Issue

This document revises and replaces BR 751-100-055, Issue 9, in its entirety. This Practice is issued to reflect that:

- Tables A, B, and E have been combined.
- Tables C & D have been changed to Tables B and C.
- Explanatory Notes have been assigned to Table D.
- Additions and changes have been made to the Explanatory Notes.
- Additional information on associations to COMMON LANGUAGE Place Codes and on associations to CLLI Codes have been provided.
- The standard business name for the State Code element (character positions 5 and 6) of a CLLI Code has been included.
- New Table E (ISO, FIPS, and COMMON LANGUAGE Code comparison) has been added.

## 4. General

COMMON LANGUAGE State Codes provide a standard for use in manual and mechanized environments. State codes used as part of the CLLI Code become an integral part of the various applications of manual, mechanized, and centrally developed systems.

Bellcore is responsible for the assignment of all state codes. Questions concerning these codes should be directed to the CLLI Technical Advisory Group Chairperson, Language Standards Department, Bellcore, through the appropriate Bellcore customer COMMON LANGUAGE CLLI Code contact.

The BR 751-401-1xx series contain listings of COMMON LANGUAGE Place Codes in alphabetical order according to place names by their COMMON LANGUAGE State Code. On a yearly basis, these documents are published for each State in the United States, Province and Territory of Canada, and other Countries of the World which include Unique Places.

## 5. State Code

**STATE DESCRIPTION.** Collectively known as state codes, these include a State of the United States (including the District of Columbia; United States Outlying and Pacific Ocean Territories; States of Mexico (including the Federal District); Provinces or Territories of Canada; other Countries of the World; or Unique Locations, e.g., High Seas and Satellites.

- A **State of the United States** is defined as one of the 50 states of the United States, the District of Columbia, or United States Outlying and Pacific Ocean Territories.
- **Province or Territory of Canada** is defined as one of the ten administrative subdivisions of Canada, or three geographical territories (i.e., Yukon Northwest, and Nunavut) under the jurisdiction of Canada.
- A **State of Mexico** is defined as one of the 31 states and the Federal District.
- **Country.** A geographical division usually defined as having an independent national status, as well as a defined territory and government. In addition, some geographical areas such as provinces, territories, atolls, possessions, domains, or portions of a larger entity are also included in the listing of country codes. Each country is represented by a 2-character alpha code that corresponds to an International Dial Code (IDC).

**Note:** IDCs having two assignments per country are East Germany (GS) and West Germany (GE), North Korea (KR) and South Korea (KO). While Germany has been united, it still maintains two IDC codes. When more than one IDC is assigned to a country, a 2-character COMMON LANGUAGE State Code must be assigned for each additional IDC. The IDC code is assigned by the International Telecommunications Union (ITU),

also known as the Union Internationale Des Telecommunications (UIT) under the United Nations. For North America, Bellcore recaps and publishes these codes in the Local Exchange Routing Guide (LERG). Since the COMMON LANGUAGE State Code assignments were made before full code agreement between countries, we do conflict with the 2-character International Standards Organization - ISO 3166 standard.

**Example:**

Bellcore Standard	ISO Standard
CA = California (United States)	CA = Canada
CN = Canada	CN = China

**Note:** Consideration was given to adopting the American National Standards Institute (ANSI) Country Code Standard (Z39.27-1984) and/or ISO 3166 as a Bellcore standard; however, because of uniqueness requirements, neither the ANSI nor the ISO Standard could be adopted for use by Bellcore.

The country names contained in this Practice reflect the latest ANSI version for naming countries. In those cases where the standard country name is different from the name commonly used, both names are listed.

**Example:**

State Name	State Code
Netherlands (Holland)	NL

**Note:** If a country's name has changed since the last issue of this Practice, its code will remain the same and the old name will be shown in parenthesis.

**STATE CODE DESCRIPTION.** A state code is a unique 2-character alpha code which represents a valid geographical entity as defined above.

**Examples:**

State Name	State Code	Remarks
Pennsylvania	PA	A state of the United States
Nova Scotia	NS	A province of Canada
Netherlands	NL	A country in Europe
Guanajuato	GJ	A state of Mexico

**STATE CODE FORMAT.** The state code is a 2-character fixed-length alpha code, and when used in any of the CLLI Code formats, it occupies character positions 5 and 6.

**Examples:**

Character Position	Place Code				State Code	
	1	2	3	4	5	6
Basic Edits	a	a	a	a	a	a
Madrid, Spain	M	D	R	D	S	P

The COMMON LANGUAGE State Code is required to uniquely identify each COMMON LANGUAGE Place Code location.

**STATE CODE REQUESTS.** Requests to modify or expand this code set must be submitted by a Bellcore customer CLLI coordinator to the Language Standards Department at Bellcore. Requests for State Codes will be verified with either the United Nations or the State Department for validity as to country recognition.

State Code requests should be addressed as follows:

Standard Request (mail or fax)	Expedited (fax)
Bellcore Language Standards Department Language Standards Support Clerk 444 Hoes Lane, RRC 4B-860 Piscataway, NJ 08854 908-336-2980 (fax)	Bellcore Language Standards Department Place Code Coordinator RRC 4C-818 908-336-2778 (fax) 908-699-5440 (tel)

The Bellcore Language Standards Department provides the technical expertise to maintain the CLLI code sets. Input to this procedure is provided by the Language Standards Technical Advisory Group, in accordance with the procedure outlined in BR 751-000-102, *COMMON LANGUAGE® Abbreviation and Code Request Procedures*.

## **6. Unique Locations: Place and State Codes**

Unique locations are assigned in the CLLI Code design system in the following way:

**Earth Orbit.** When it is necessary to encode satellites in earth orbit, the 4-character COMMON LANGUAGE Place Code field is assigned the mnemonic code "STLT" (for Satellite), and "EO" (Earth Orbit) is assigned in the 2-character COMMON LANGUAGE State Code field.

**Example:**

State Name	Place Code				State Code	
Character Position	1	2	3	4	5	6
Satellite	S	T	L	T	E	O

**High Seas.** High Seas locations are off the land's edge without regard to the 3-, 12-, or 200-mile limit, etc., recognized by various countries. In assigning new codes, Bellcore will consider client input (International Overseas Regional Coordinator) to determine where the land ends and the body of water begins and the use of the High Seas (HS) Code.

**Ships at Sea.** When it is necessary to encode ships at sea, use the home port (port of registration) COMMON LANGUAGE Place and State Code.

**Underseas Cable or Repeaters.** When it is necessary to encode underseas cable or branching repeaters associated with cable, a unique 4-character COMMON LANGUAGE Place Code field identifies the body of water, and the mnemonic code "HS" (High Seas) is assigned in the 2-character COMMON LANGUAGE State Code field. The composite 6-character code will uniquely identify bodies of water, such as seas, oceans, lakes, gulfs, straits, bays, etc.

**Example:**

State Name	Place Code				State Code	
Character Position	1	2	3	4	5	6
Bering Sea	B	R	G	S	H	S

**Note:** CLLI Entity Codes (for switching and/or nonswitching) or CLLI Non-building Codes may be assigned to a High Seas or Earth Orbit location as appropriate.

For a complete list of unique COMMON LANGUAGE Place and State Codes associated with satellites and bodies of water, see Table A.

**Table A. States of the United States, United States Outlying and Pacific Ocean Territories, Provinces and Territories of Canada, States of Mexico, Other Countries of the World, and Unique Location Codes.**

**Table D. Explanatory Notes**

<b>Code</b>	<b>State Name</b>
AA	Aruba (see NA) Status A to I Aruba was previously part of the Netherlands Antilles (NA). Country code AA was assigned for Aruba (FIPS #5 4-86). Place code ORAA (Oranjestad the chief town in Aruba) is presently assigned and in use under country code NA. Check records under ORAANA before building new record using country code AA. No place codes have been assigned at this time to AA.
AC	Ascension Island (Use GRAIHL or PN) Status I Ascension Island is part of, and governed by, St Helena since 1922. All records for Ascension Island should be built under GRAIHL (Georgetown, St Helena). Country code PN is Ponape, formerly called Ascension Island.
AI	Anguilla Status A Union with St Christopher-Nevis dissolved in 1971. Place code GRTW (Georgetown) is presently assigned to country code AI, and should be reassigned to St Helena (HL). Georgetown is the only settlement on Ascension Island.
AN	Antigua & Barbuda Status A Includes island of Redonda.
AU	Australia Status A Includes Lord Howe Island, Macquarie Island. Ashmore, Cartier, and Coral Sea Islands are Australian external territories.
AY	Antartica Status A The territory south of 60 degrees south latitude.
BZ	Brazil, Federative Republic of Status A Includes Rocas, Fernando de Noronha Archipelago, Trindade, Ilhas Martim Vaz, and Sao Pedro e Sao Paulo.
CC	Curacao Island (use NA) Status A to I Curacao Island is the largest island of the Netherland Antilles (NA). Place code OTBD (Otrabanda) is presently assigned under country code CC and should be reassigned to country code NA. Check records under OTBDCC before building new records under country code NA.
CH	Chile, Republic of Includes Easter Island, Juan Fernandez Islands, San Felix, and Sala Y

**Table D. Explanatory Notes (continued)**

<b>Code</b>	<b>State Name</b>
	Gomez.
CK	Czech Status A Formed by Split of Czechoslovakia (1-93).
CL	Colombia, Republic of Status A Includes San Andres Y Providencia, Malpelo Island, Roncador Bank, Serrana Bank, and Serranilla Bank.
CN	(Reserved for Canada - See Table A) Status I Use the individual Province or Territory codes as appropriate.
CQ	Cayman Islands Status A Includes Grand Cayman, Cayman Brac, and Little Cayman.
CV	Cape Verde, Republic of Includes Boa Vista, Brava, Fogo, Maio, Sal, Santo Antao, Sao Nicolau, Sao Tiago, and Sao Vicente.
CW	Comoros, Islamic Federal Republic of the Status A Includes Anjouan, Grande Comore, Moheli, and other Islands.
ER	Eritera Status A Formerly a province of Ethiopia until 1-93.
ET	Estonia Status A Formerly a state in the USSR (Union of Soviet Socialist Republics), now an independent country (3-92).
FT	French Antilles (French West Indies) Status I to A French Antilles is also known as French West Indies and includes Martinique, Guadeloupe, and the dependencies of Guadeloupe: Desirade, Les Saintes, Marie Galante, Saint Barthelemy, and part of St Martin.
GL	Kiribati (Gilbert Islands) Status I to A Kiribati was previously known as the Gilbert Islands. It is comprised of Tarawa, Makin, Abaiang, Abemama, Tabiteuea, Nonouti, and Beru Islands.
GS	German Democratic Republic (use GE) Status A to I Due to the reunification of East and West Germany, country code GS

**Table D. Explanatory Notes (continued)**

<b>Code</b>	<b>State Name</b>
	(German Democratic Republic - East Germany) will be deleted from table C & D when all records for BRLNGS have been reassigned to BRLNGE. All future records should be built under country code GE (Federal Republic of Germany) with the appropriate place codes.
GV	Guantanamo Bay (Use CU) Status I All records should be built under country code CU (Cuba) with the place code CTNO. Country code GV will be deleted from Tables C & D when all records for CTNOGV have been reassigned to CTNOCU.
HL	St Helena Island Status A The HL country code consists of three islands, St Helena Island (Jamestown), Ascension Island (1922), and Tristan da Cunha (1938) which constitutes a British crown colony.
JU	Majuro use MJISRS, see MJISTQ Status A to I Majuro (MJIS) exists as a place under country code TQ (Pacific Islands Trust Territory of the United States) and under country code JU. In addition, Uliga (ULGS), with a 01T entity code record exists. Majuro is the capitol of the Marshall Islands (RS). No further records should be built under JU. Future place codes should be built under country code RS.
KA	St Kitts-Nevis or St Christopher-Nevis Status A Nevis (NVIS) exists as a place under KA (St Kitts). Country code NI has been grandfathered, all new records should be built under KA. Independent from Anguilla (AI) since 1983.
LK	Slovakia Status A Formed by Split of Czechoslovakia - 1/93, now an independent country (3-92).
LT	Lithuania Status A Formerly a state in the USSR (Union of Soviet Socialist Republics), now an independent country (3-92).
LV	Latvia Status A Formerly a state in the USSR (Union of Soviet Socialist Republics), now an independent country (3-92).

**Table D. Explanatory Notes (continued)**

<b>Code</b>	<b>State Name</b>
MX	Mexico Status A to I Use the individual States of Mexico as appropriate (See Table A). Do not build records under country code MX.
NA	Netherland Antilles Status A The Netherland Antilles consists of several Islands in the West Indies: Curacao, Bonaire, St Martin, St Eustatius, and Saba.
NI	Nevis use NVISKA Status A to I Nevis (NVIS) exists as a place under KA (St Kitts). NI has been grandfathered; all new records should be built under country code KA. Newcastle (NWCS) exists as a place under country code NI and should be reassigned to country code KA.
RU	Russia Status A Formerly a state in the USSR (Union of Soviet Socialist Republics), now an independent country (FIPS #11 1-92). All existing records must be changed accordingly to their proper country codes. The Union of Soviet Socialist Republics of Russia has been divided into a number of independent countries. All are recognized by either the United Nations or the United States and are shown as follows: Armenia (AP), Azerbaijan (AJ), Byelorussia/Belorussian (BY), Georgia (GG), Kyrgyzstan (KG), Kazakhstan (KZ), Moldova (LD), Tajikistan (TI), Turkmenistan (TM), Ukraine (UA), and Uzbekistan (UZ).
SB	Saba Status A to I Saba is in the Leeward Islands and part of the Netherland Antilles (NA). Presently, Mount Scenery (MTSC) is coded under SB. All new records should be built under NA.
TQ	Pacific Islands, Trust Territory of the US Status A to I In 1986 this area was redesignated Marshall Islands (RS), Micronesia (FM), Northern Mariana Islands (NN), and Palau (PL). Country code TQ has been grandfathered. Further records should be built under either RS, FM, NN, or PL, as appropriate.
US	United States Status I Use the individual States of the United States as appropriate.

**Table D. Explanatory Notes (continued)**

<b>Code</b>	<b>State Name</b>
UV	Burkina Faso    Status A Burkina Faso was previously known as Upper Volta.
YG	Yugoslavia, Socialist Federal Republic of    Status A The Socialist Federal Republic of Yugoslavia has divided into a number of independent countries (8-92). At this time, not all are recognized by either the United Nations or the United States. The following country codes have been assigned: Bosnia & Herzegovina (BB), Croatia (HV), Slovenia (SQ) and Macedonia (ED). The following have reserved country codes: Montenegro (MG), and Serbia (SJ).
YM	Yemen    Status A Yemen, People's Democratic Republic (YD) merged with Yemen, Arab Republic (YM) May 22, 1990. All records should be built under country code YM (Yemen).

**Note:** The COMMON LANGUAGE Place and State code STLTEO should be used to identify maritime satellites in lieu of the following reserved codes:

AT	Marisat-Atlantic Ocean
IM	Marisat-Indian Ocean
PF	Marisat-Pacific Ocean
