## List of Tables

Table A. Geographical Codes for the State of Louisiana..... 11

## 1. Purpose and Scope

This Practice provides the Geographical Code assignment for place names located within the indicated geopolitical area or areas.

This Practice is directed to those who need to know the COMMON LANGUAGE® Location Codes (CLLI™ Codes)—Geographical Codes for a particular geopolitical area or areas for assignment, description, and/or application interface requirements.

## 2. Reason for Issue

This practice revises and replaces BR 751-401-119, Issue 25, in its entirety, and supercedes all other documents alleged to provide Geographical Code assignments for place names within associated geopolitical areas.

## 3. General

Geographical Codes are developed and assigned only by the Telcordia COMMON LANGUAGE® Products Business Unit, for place names and unique locations throughout the world, upon request.

Geographical Codes are not unique and may be replicated between Telcordia designated geopolitical areas, having different Geopolitical Codes.

All Geographical Codes assigned to a specific Geopolitical Code provide unique code combinations identified as a Geographical Format comprised of a Geographical Code Element and a Geopolitical Code Element.

Geographical Codes are maintained in an on-line master database by the Telcordia COMMON LANGUAGE Products Business Unit.

Geographical Codes provide a standard for use in manual and mechanized environments.

Geographical Codes used as part of a CLLI Code become an integral part of the various applications of manual, mechanized, and centrally developed systems.

Questions concerning codes contained in this Practice, and requests for new Geographical Codes, should be directed through the Telcordia customer COMMON LANGUAGE Location Code contact (or designee) to the Technical Advisory Group CLLI Codes chairperson of COMMON LANGUAGE Products Business Unit, Telcordia.

See BR 751-100-050, *COMMON LANGUAGE® Location Codes—Geographical Codes Description* for additional information and code request procedures.

**Non-Licensees** may request Geographical Codes through the American National Standard Institute, Inc. (ANSI) by contacting the following:

Telcordia COMMON LANGUAGE® Products Business Unit Customer Support Center (CSC)  
45 Knights Bridge Road, PY5-5A235  
Piscataway, NJ 08854

Licenses of CLLI Codes may either mail or submit a fax for Geographical Codes to the Customer Support Center as indicated in the table below.
