

**RADIO ENGINEERING**  
**MICROWAVE RADIO**  
**6-GHZ SYSTEMS**  
**TH-3**

**CAUTION**

Recent changes in Part 21 in the FCC Rules restrict the use of protection channels in microwave radio systems. The portion of this practice relating to the number of protection channels permitted should be ignored and the current rules reviewed, via the appropriate line of organization, in determining the permissible number of protection channels.

**CAUTION**
