ENGINES - DIESEL

GENERAL MOTORS - SERIES 71 SETS

KS-5574

1. REASONS FOR ADDENDUM

1.01 This addendum supplements Section A301.232, Issue 4. It is issued to revise the requirements for the storage of diesel fuel oil and to specify the recommended engine fuel for use in this Area. Paragraph 1.04 of the main section has been replaced with a like numbered paragraph in this addendum and should be marked "see addendum."

2. CHANGES

1.04 In connection with the storage of fuel oil for these sets, care should be exercised to prevent dirt from entering the fuel storage tank. Refer to Section A301.290 and its addendum, Issue A, for information on recommended engine fuels and requirements for storing and handling.
