

RELAYS
 DISCONTINUED CODES AND REPLACEMENTS

1. GENERAL

1.01 This section is issued to provide information relative to relays recently rated "Mfr. Disc." and to their replacement codes.

1.02 This section does not include relays which are stamped with two codes. The first code being the preferred relay and the second code the replaced relay.

1.03 The replacing relay is mechanically interchangeable with, and capable of adjust to, the requirements of the replaced relay.

2. RELAY CODES

2.01 Table No. 1 lists replacing relays not provided with double code stamping. The first column lists the replacing relay code and the second column lists the replaced relay.
