

CODES — 104 TEST LINE LOCATIONS
CITIES — G, H, I

1. GENERAL

1.01 This point section provides an alphabetical grouping of the cities equipped with Code 104 test lines which may be reached from a distant city over dial intertoll trunks. Offices within the city will be designated only where there would be a question otherwise as to which office is equipped. This list will be reviewed periodically in order to keep it up to date.

1.02 Issue 2 of this section lists cities which have been added since Issue 1 and gives noise check information for each of the cities. Where the setting of the noise checking circuit is other than 35 dba (i.e., 40 or 45 dba) the figure for the setting is indicated in parentheses after the name of the city.

Gadsden, Alabama
 Gastonia, North Carolina
 Goldsboro, North Carolina
 Graham, Texas
 Grand Junction, Colorado
 Grand Rapids, Michigan
 Green Bay, Wisconsin
 Greenfield, Massachusetts
