

NON-CODED TOOLS
REAMING TOOLS, RECEIVERS, REELS
AND REPLACERS

1. GENERAL

1.01 This addendum, which supplements Section A707.121, is issued to cover piece part information for supplemental bases for jumper wire reels. This issue should be retained with subsequent issues of the section until notice is given covering its cancellation or reissuance.

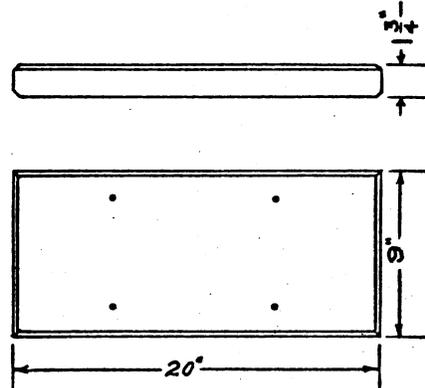

BASE FOR KS-8047 REEL PER DRAWING
EEH-248, FIG. 2

Instructions for attaching base to reel:

Remove the existing wood base of the reel and drill four corresponding holes in the new base so that the reel will set in the approximate center of the base, as indicated in the above sketch. Remove and reuse the rubber feet on the new base.

BASE FOR KS-8289 REEL PER DRAWING
EEH-248, FIG. 1

Instructions for attaching base to reel:

Drill four holes, using a No. 2 or 7/32 inch drill, at approximately 6 and 9-3/8 inch centers in the four corners of the metal base of the reel and four corresponding 1/8 inch holes, 1 inch deep, in the approximate center of the wood base. Attach the base to the reel using 2-inch No. 12 R.H. Blued wood screws.
