TABLE, ELEVATING, PORTABLE, KS-14550

For use in handling the No. 214A selector of the 1-type translator.

TABLE, REPAIR, CORD. KS-5263

Consists essentially of a linoleum covered olive green finished metal table equipped with a lighting fixture and mounted on casters having rubber tired wheels and lock brakes. The table is equipped with a drawer divided into compartments in which are trays for holding cord repair parts and materials and spindles for holding spools of gilling thread. The table top is drilled for mounting the No. 316 or 317 tools. The lighting fixture is supplied with a 12' cord. An extension cord is available for, but not supplied with the table. In ordering extension cords, specify length desired.

The lock brake casters may be ordered as follows:

(Quantity) Lock Brake Casters for KS-5263 Cord Repair Tables.

For use in repairing switchboard cords.
