

NONCODED GAUGES

AMMETERS (DC-TYPES)

→ AMMETER, DC, WESTON MODEL NO. 1, 1.8/0.6
 AMP. SCALE DIVISIONS

Scale length - 5.18", with mirror.

Accuracy, within 0.25% of full scale.

Supplied with a leather carrying case with a leather handle. Size of instrument is 6-5/8" x 6" x 3-1/2".

The 1.8/0.6 amp. instrument is for use in measuring filament current of 1.6, 1 or 1/2 amp. electron tubes.

The 1, 3, 5, 10 and 50 amp. instruments are replaced by the KS-8039 Volt-Milliammeter when used with a KS-9442 List 21 Shunt.

For general use.

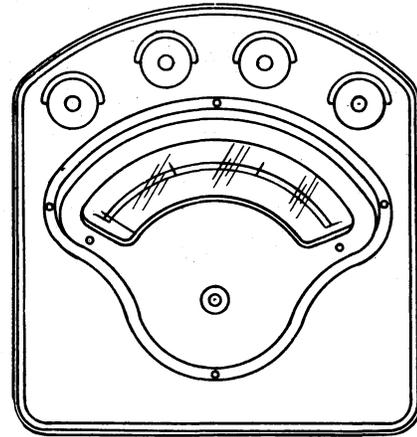

→ AMMETER, DC, WESTON MODEL NO. 45, 150
 SCALE DIVISIONS FOR USE WITH 50-MILLIVOLT
 DROP SHUNT, WITHOUT SHUNT.

Replaced by the Ammeter, DC, Weston Model No. 901.

→ AMMETER, DC, WESTON MODEL NO. 280

Replaced by Ammeter, DC, Weston Model No. 281, with no change in operating characteristics.

→ AMMETER, DC, WESTON MODEL NO. 281
 (In ordering, specify ranges desired.)

Range Amp.	No. Scale Divisions
30/3/1.5	60
100	50

Scale length - 2.97", with mirror.

Accuracy, within 1% of full scale.

Shielded from external magnetic fields.

Size of instrument - 4-2/5" x 4-3/5" x 1-1/2"

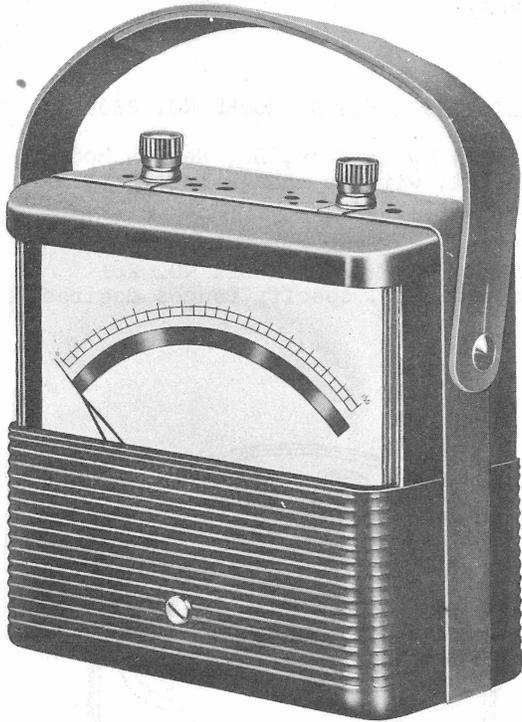

Plastic carrying cases are available for, but not furnished with these instruments. When a case is desired, order "Duplastic Case for Weston Model No. 281 DC Ammeter".

The 100 amp. instrument is furnished with an external shunt having a drop of 50-millivolt and 5-foot leads.

Replaces the Ammeter, DC, Weston Model No. 280.

For general use.

→ AMMETER, DC, WESTON NO. 901, 150 AMP.
SCALE DIVISIONS, FOR USE WITH 50 MILLI-
VOLT DROP SHUNT. FURNISH WITHOUT SHUNT.

Scale length - 5.5", with mirror.

This instrument requires a 50-millivolt drop external shunt to provide required ranges. Provides direct reading (150 amp.) when used with external shunt KS-9442 List 6 (150 amp. capacity). Multiply readings by 10 when external shunt KS-9442 List 14 (1500 amp. capacity) is used.

Size of instrument - 7-1/2" x 7-1/4" x 3-5/8"

Accuracy, within 0.50% of full scale.

Leather carrying cases are available for, but not furnished with these instruments. When a case is desired, order "Leather carrying case for Weston Model No. 901 DC Ammeter."

KS-9442 List 6 and List 14 External Shunts are to be ordered separately as covered in Section A709.068.

Replaces the Ammeter, DC, Weston Model No. 45.

For general use.
