

## **TELEPHONE SETS—1750 SERIES**

### **MAINTENANCE**

#### **I. GENERAL**

**1.01** This section supplements Section C38.680.01, Telephone Sets, 750 Series, Maintenance, to provide information on the 1750 series telephone sets.

**1.02** The 1750 series telephone sets employ the same components as presently manufactured 750 series sets, except for the 25A3 dial and D1E ringer. The D1E ringer will be used in the future production of 750 series telephone sets in place of the D1B ringer presently in use.

**1.03** The ringers, handsets, dials, and networks used in these sets should be maintained in accordance with the section covering the particular part.

**1.04** For additional maintenance information on the 1750 series telephone sets, refer to Section C38.680.01.
