

**STATION WIRING PLANS 207, 208, 209,
 210 AND 211
 CONNECTIONS**

1. GENERAL

1.01 This section covers the connections for station wiring plans 207, 208, 209, 210 and 211. It is reissued to include connections for the improved four winding relay holding circuit. ←

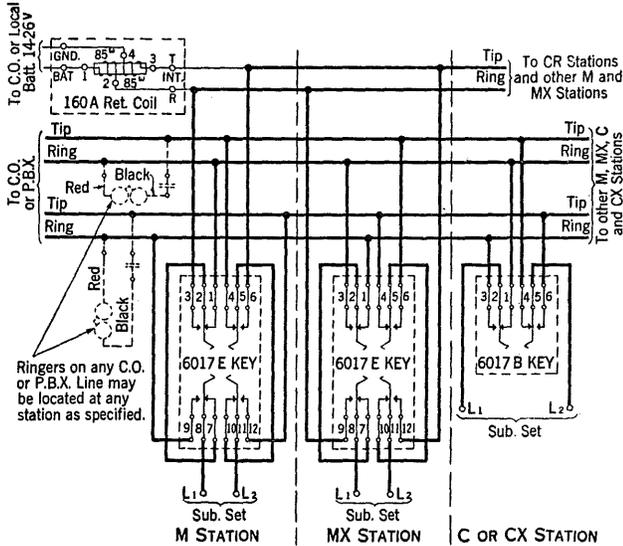

Fig. 1—Plan 207.

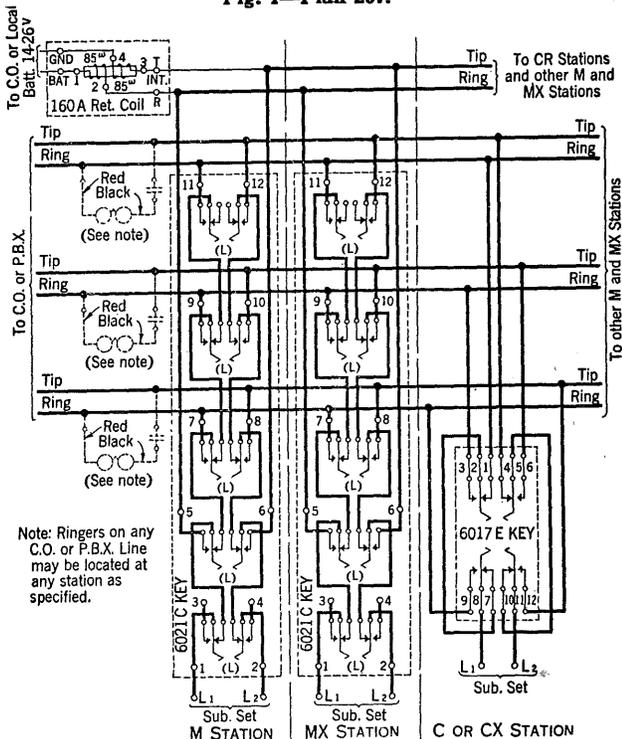

Fig. 2—Plan 208.

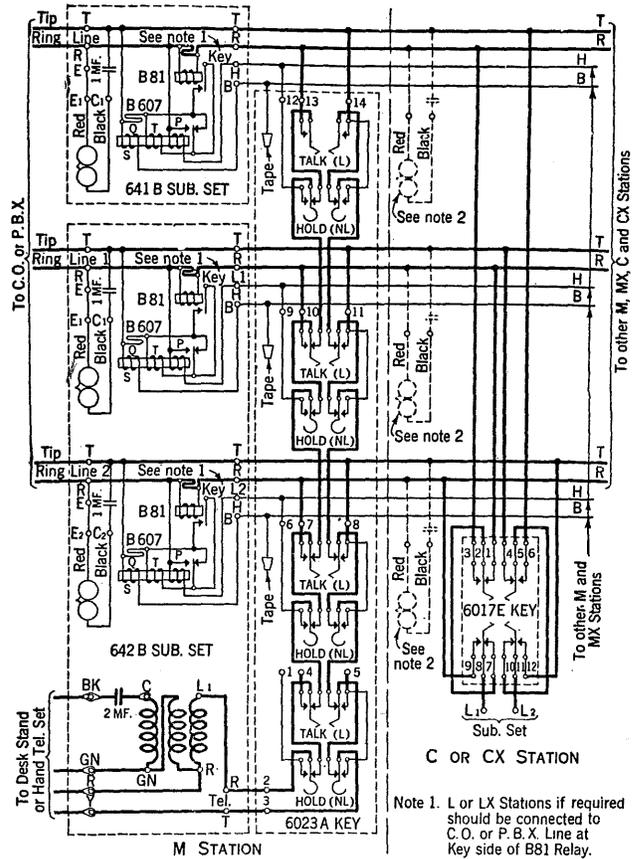

Fig. 3—Plan 209.

Note: Ringers on any C.O. or P.B.X. Line may be located at any station as specified.

Note 1: L or LX Stations if required should be connected to C.O. or P.B.X. Line at Key side of B81 Relay.
 Note 2: Ringers on any C.O. or P.B.X. Line may be located at any station as specified.
