

FIRST AID

WOUNDS AND BLEEDING

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G10. 207. 3 with instructions to specify Merthialate, rather than Iodine, for the treatment of certain wounds as outlined in this section.

The following paragraphs should be marked "See Addendum" and treated as indicated.

- Paragraph 2. 02 - Supplemented
- Paragraph 2. 03 - Replaced

2. WOUNDS IN WHICH BLEEDING IS NOT SEVERE

2. 02 Sentence four should be supplemented as follows:

Delete the word "Iodine" and replace with "Merthialate."

2. 03 If the wound has been washed, allow it to dry before applying merthialate. Apply merthialate well down into the wound, then on the skin around the wound for a distance of one-half to one inch. Let the merthialate dry.
