

AVERAGE WEIGHTS OF POLES

STUBS AND ANCHOR LOGS

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G21.071.1 and has been issued to provide information about the classification of Western Larch Poles in California.

Part 9 of G21.071.1 is canceled so should be crossed out and marked "See Addendum."

9. WESTERN LARCH

9.01 In order to comply with the requirements of the California Public Utilities Commission, Western Larch Poles are reclassified locally to the same as Douglas fir. Therefore, to find the approximate weight of Western Larch Poles the Douglas fir tables shall be used.
