

POLE LINES - MAINTENANCE

STUB REINFORCEMENT

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G21.430 with the dimensions of Western Pine Reinforcing Stubs.

The cross-reference "See Addendum" should be written in Section G21.430 at Paragraph 5.11. The table of dimensions in Paragraph 5.11 is retained, but the information preceding it is replaced herein.

5. SIZES OF STUBS

5.11 Southern pine, Western (Ponderosa) pine and Douglas fir stubs are available in the following stock sizes: The length and top circumference are minimum values. The ground line circumference is based on the minimum top, average taper, and average depth of setting.
