

WIRE STRINGING PRECAUTIONS

GENERAL

NOTES CONCERNING THIS ADDENDUM

This addendum is being reissued to include requirement of wearing rubber gloves when performing work operations on non-working open wire.

The cross-reference "See Addendum" should be marked in Section G31.090.1 at Paragraph 3.05 which has been supplemented with a note.

3. INDIVIDUAL PROTECTION

- 3.05 Note: Rubber gloves must be worn by all workmen when connecting or reconnecting non-working open wire (wire that is not connected to a cable or central office equipment) on jointly used or non-jointly used poles. This includes making connections between open wire circuits as well as when opening such lines for testing or repair work, etc.
