

OPEN WIRE

SUSPENSION TYPE CONSTRUCTION

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G31.113.1 and is being issued to advise that the materials mentioned in the practice will be made available on a nonstock basis anytime this type of construction is contemplated.

Contemplated applications of this provisional practice to cases other than unexposed leads with no other circuits involved, shall be referred to the Chief Engineer's office for consideration of possible special requirements.

The cross-reference "See Addendum" should be marked in G31.113.1 to indicate the following:

Paragraph 8.02(a)	Supplemented
Paragraph 8.02(b)	Supplemented
Paragraph 8.03	Supplemented
Paragraph 8.04	Supplemented
Paragraph 11	Supplemented
