

OPEN WIRE  
BRIDLING TO LINE WIRE

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G31.135.2. It has been issued to provide information regarding bridle wire connections to open wire lines located in corrosive areas.

"See Addendum" should be marked in Section G31.135.2 to indicate the following:

- Paragraph 1.04 - Added
- Paragraph 2.03 - Supplemented

1. GENERAL

1.04 Bridling connections to open wire lines located in semi-corrosive or severe-corrosive areas shall be made in accordance with instructions contained in Section G32.129.1.

2. INSTALLING BRIDGING CONNECTORS

2.03 Note: In semi or severe-corrosive areas the connector or connectors shall be placed on the lower portion of the wire loop, and the twisted pair wire extended and "by passed" as outlined in Section G32.129.1 for the area involved.
