

DROP AND BLOCK WIRING
METHODS OF MAKING ATTACHMENTS TO
BUILDINGS

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G32.114.1 and has been issued to provide instructions for making attachments to stucco-on-wire and to specify the size of drill to be used to make the lead hole for 1-1/4 Drive Rings.

The cross-reference, "See Addendum," should be written in G32.114.1 at Paragraphs 2.03 and 2.09 which are supplemented.

2. METHODS OF MAKING ATTACHMENTS TO BUILDING SUR-
FACES

- 2.03 Note: On stucco-on-wire, attachments shall be made in a stud or to substantial wood trim wherever possible.
- 2.09 A 1/16 inch Drill Point shall be used for the lead hole for the 1-1/4 inch Drive Ring.
