ADDENDUM G32.505
Issue A, March, 1950-S
T. P. T. & T. Co.

DROP AND BLOCK WIRING
REMOVAL AND DISPOSAL OF WIRE
AND ATTACHMENTS

NOTES CONCERNING THIS ADDENDUM

This Addendum supplements Section G32.505 with instructions for the removal of S type Wire Clips. It also cancels instructions for the removal of drop wires over trolley contact and power wires as these operations are now covered in detail in other sections.

The cross-reference "See Addendum" should be written at Paragraph 4.06 which is cancelled and after Paragraph 8.01 to indicate the addition of new information.

4. REMOVAL OF WIRE

4.06 Paragraph 4.06 is cancelled as the information contained in this paragraph is now carried in the sections covering "Lowering and Replacing Drop Wire."

9. REMOVING S TYPE WIRE CLIPS

9.01 S type wire clips should be removed from drop wire in plant by holding the drop wire in one hand and with a pair of diagonals in the other hand turning up and bending back the corners of the clip sufficiently to permit the wire to be removed with little effort.
