ADDENDUM G50.637.6
Issue B, March, 1948-S

GENERAL CABLE SPLICING

Y SPLICES IN B DISTRIBUTION CABLE

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G50.637.6 and includes modifications in the tape wrapping procedure at splices of B Distribution Cable.

The cross-reference, "See Addendum", should be marked in Section G50.637.6, after paragraph 5.21(4), to indicate the addition of new instructions.

5. FORMING AND WRAPPING SPLICE

5.22 Apply two half-lapped layers of friction tape over the outermost layer of B tape and paint thoroughly with No. 2 asphalt paint to which has been added 1/4 pound of aluminum powder per pint of paint.
