

SUSPENSION STRAND

FALSE DEAD ENDING

NOTES CONCERNING THIS ADDENDUM

This addendum provides the dimension between eye bolts and suspension bolts when constructing false dead ends, and information relative to the areas in which the false dead-end strandwise shall not be used. The following should be marked "See Addendum" and treated as indicated.

- Paragraph 2.01 - Correction
- Paragraph 2.03 - Supplemented
- Paragraph 2.04 - Supplemented
- Paragraph 3.03 - Note - Added

2. GUY CLAMP FALSE DEAD END

2.01 Correction - change the "16,000" on the last line of 2nd column in table to "25,000."

2.03 and 2.04 In the drawings associated with these paragraphs a 4 inch separation should be shown between the eye bolts and the suspension bolts.

3. FALSE DEAD-END STRANDWISE

3.03 Note: Locations where extreme conditions of salt spray and salt fog may be encountered shall be classified as severe corrosive areas. Refer to Paragraph 5.03 of the Addendum to Section G32.129.1 for areas which are classified as severe corrosive and in which the false dead-end strandwise shall not be used.
