

LASHED AERIAL CABLE

HANDLING OF "C" CABLE LASHER

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G52.122.4 and provides information on the use of the "C" Cable Lasher on 2.2M strand.

The cross-reference, "See Addendum," should be written in Section G52.122.4 following subparagraph 3.02(4) to indicate the addition of new information.

3. PLACING LASHER ON STRAND

3.02(4) Note: When lashing cable to 2.2M strand, build up the diameter of the rear cable lifter with friction tape to obtain the clearances specified above.
