

LASHED AERIAL CABLE
ARRANGEMENT OF SUPPORTS
WHERE SPLICE IS PRESENT

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G52. 125. 5 with additional information for arrangement of supports where a splice is present.

"See Addendum" should be marked in G52. 125. 5 to indicate the following:

- Paragraph 2. 02 supplemented.
- Paragraph 6. 02(c) supplemented.
- Paragraph 8. 01 supplemented.

2. TEMPORARY SUPPORT ARRANGEMENT

2. 02 Terminate lashing wires on temporary clamps placed approximately in the center of the splice location in order that the cable splicing forces can make permanent terminations at the proper locations after the splice is completed.

6. TERMINAL SPLICES

6. 02(c) Where the radius of bends permits, support the cable to the strand with a lashed cable support and cable spacer between the thimble-eye nut and three bolt clamp.

8. BRANCH CABLES

8. 01 Where the distance between the support on the branch cable and points C exceeds 20 inches, support the cable to the strand with a lashed cable support and cable spacer between the thimble-eye bolt and three bolt clamp.
