

AERIAL CABLE - RING CONSTRUCTION

LOCATION OF SPLICES

	<u>CONTENTS</u>	<u>PAGE</u>
1.	GENERAL.....	1
2.	LOCATION OF SPLICES.....	1

1. GENERAL

1.01 This section provides information relative to the location of splices for cables supported in ring construction.

2. LOCATION OF SPLICES

2.01 Where cables are placed in ring construction, refer to the section of the practices that contain instruction on the type of plant being spliced. Splice opening measurements for cables placed in ring construction should be the same as those for lashed cable.
