

## CENTRAL OFFICE CABLE VAULTS

### LIST OF UNISTRUT MATERIAL

#### NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G55.145.1 and has been issued to designate the group responsible for providing the frames in central office cable vaults and to list the Unistrut materials which will be available to the field forces in the Catalogue of Supplies.

The cross-reference, "See Addendum," should be written at Paragraphs 1.01 and 2.02 which are replaced.

#### 1. GENERAL

1.01 Section G55.145.1 describes the Unistrut materials used in the steel framework which supports the cables in central office cable vaults. The provision of this framework in central office cable vaults, pits or rooms is the responsibility of the General Engineering Department. The individual parts and the sub-assemblies in which these parts appear most frequently as the framework is erected are listed and illustrated.

#### 2. ORDERING INFORMATION AND LIST OF MATERIAL

2.02 A sketch of the basic piece parts, and an outline of their usage together with the necessary ordering information, is given in Section G55.145.1. In addition, the following items

which are used to support cables and cable racks on Unistrut frames are listed in the Catalogue of Supplies for the benefit of the field forces:

CLAMP, TUBING, UNISTRUT - Cable Hanger

NUT, MACHINE, SQUARE, UNISTRUT

NUT, UNISTRUT

SCREW, CAP, HH, UNISTRUT

SCREW, MACHINE, RH, UNISTRUT
