# TERMINALS

## INSTALLATION OF UNPROTECTED INSIDE CROSS-CONNECTING TERMINALS FOR PIC CABLE

### 1. GENERAL

1.01 This addendum has been issued to provide the revised nomenclature of various items of hardware used in unprotected inside cross-connecting terminals for use with PIC cable. These items are mentioned throughout the main section under the original listings but the following revised listings should be used when ordering the materials.

1.02 The nomenclature is as follows:

#### Original Listing

Aero-Seal Clamp  
F-53088 H Type Ground  
Clamp Bracket  
Group Separator  
Slack Wire Container

#### Revised Listing

Sealing Clamp  
Bracket, KS-16667, List 2  
Bracket, KS-16666  
Container, KS-16668, List 1,  
2, 3, or 4

	<u>List No.</u>	<u>Pair Size</u>
	1	100
	2	200
	3	300
	4	400
#4 Type Ring		Ring, Distributing, 13A, B or C
12A Type Ring Modified		Ring, Distributing, F-53133
12B Type Ring Modified		Ring, Distributing, F-53134
12C Type Ring Modified		Ring, Distributing, F-53135

ADDENDUM
