

## TERMINALS

### MARKING F TYPE CABLE TERMINAL

#### NOTES CONCERNING THIS ADDENDUM

This Addendum supplements Section G61.166 with information relative to stencilling F Type Cable Terminals.

The cross-reference, "See Addendum" should be marked at Paragraph 2.01 which is replaced herein, also at Paragraph 2.01(a) to indicate a deletion and following 2.01(a) to indicate the addition of new information. Paragraphs 2.01(b) (and associated drawing) and 3.01(b) are hereby cancelled and should be cross-referenced accordingly.

#### 2. MARKING TERMINALS

2.01 Where identification of the cable pair terminations in an F Type Cable Terminal is required, the pair numbers shall be marked on the porcelain fanning strip using the rubber stamp method as shown in Paragraph 2.01(a).

2.01(a) The phrase "when specified" should be deleted from Paragraph 2.01(a) and the drawing shown in Paragraph 2.01(a), as the cable number and terminal number should be included whenever it is necessary to mark the pair numbers.

2.01(b)(and associated drawing) cancelled.

2.02 When it is necessary to mark the terminal number on the outside of the cover, the number should be stencilled on the cover in accordance with the instructions contained in the Bell System Practices relative to marking Cable Terminals.

3.01(b) Cancelled.
