

PRESSURE TESTING

RESIN PLUGS - SHEATH INJECTION

LEAD CABLES OVER 5/8-INCH DIAMETER

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G73.157.3 with additional instructions on locating plugs.

The following paragraphs should be marked "See Addendum" and treated as indicated.

Paragraph 2.03 - Supplemented

Paragraph 2.05 - Supplemented

2. LOCATION OF PLUG

2.03 Care should be taken in locating the plug so that resin compound will not flow in the cable past the duct entrance, as it would eliminate the possibility of future by-pass requirements.

2.05 Due to possible future requirements for insulating joints in many central office vaults, plugs should not be located in the first two splicing bays from the duct entrance to these vaults.
